ABOUT ME

I'm a passionate, detail-oriented and Results-driven Full Stack Developer currently pursuing a Computer Science degree at Ahmadu Bello University DLC, I build responsive, scalable web applications using HTML, CSS, JavaScript, React, Next.js, PHP, AngularJS, Java, PostgreSQL, Tailwind CSS, and TypeScript, with backend expertise in Node.js and APIs. I also bring product management experience and proficiency with Microsoft Office, WordPress, and no-code platforms to deliver fast, customizable solutions. I leverage AI tools (ChatGPT, GitHub Copilot, Notion AI) to boost productivity and creativity, and I am committed to continuous learning and applying technology to solve real-world problems.

AREA OF EXPERTISE

- ◆ Responsive Web Design using HTML, CSS, Tailwind CSS
- ◆ Frontend Development with JavaScript, React, TypeScript, Vite, Nextjs, Angularjs
- ◆ UI/UX Design with Figma and Canva
- ◆ WordPress Website Design and Customization
- ◆ Full Stack Web Applications :Node.js
- ◆ Data Analysis using Excel, Power BI, and SQL
- ◆ Dashboard Creation, Data Cleaning, and Reporting
- ◆ AI-Assisted Coding using ChatGPT and other tools , GitHub Copilot
- ◆ No-Code Tools for Website Building and Automation Using AI Tools Professionally for Productivity and Workflow
- ◆ Version Control using Git and GitHub
- ◆ Other tools: Zoho CRM, Trello, WordPress, Mailchimp, Google Analytics, Zoom, Slack, Notion etc

PROJECTS

1. Personal Portfolio Website

Project Owner: Blessing Mbata

Date: June 2024

Description: Built with HTML, CSS, JavaScript, and Tailwind CSS. Showcases skills, services, resume, and certificates with responsive design.

2. Invoice Generator Web App

Project Owner: Blessing Mbata

Date: June 2025

Description: A dynamic web application that allows users to create and print invoices. Demonstrates form handling, conditional logic, and layout formatting.

3. Todo App

Project Owner: Blessing Mbata

Date: February 2024

Description: A simple yet efficient task management web app built with React.

4. Bookstore Website

Project Owner: Blessing Mbata

Date: January 2024

Description: An e-commerce-style frontend for browsing and listing books. Built using React + Vite.

5. Sensitive Info Protector (SentriVault)

Project Owner: Blessing Mbata

Date: June 2025

Description: A Web3 app built to store and display sensitive information securely. Focused on security patterns, conditional visibility, and clean UI/UX.

6. SpeakUp AI

Project Owner: Blessing Mbata

Date: June 2025

Description: A web-based AI messaging assistant that generates personalized messages. Uses modern design and form logic. Demonstrates AI tool integration for communication enhancement.

Ongoing Projects

Project Owner: Blessing Mbata

Date: 2025 – Present

Description: Continually working on new tools and improvements including admin dashboards, blog platforms, and data reporting solutions using Web3 and AI technologies. And other's Next.js projects on GitHub

EDUCATION

- B.Sc. Computer Science (Ongoing)

Ahmadu Bello University, Zaria

Currently pursuing

- Senior Secondary Certificate (SSCE)

Community Comprehensive Secondary School, Port Harcourt

2018 – 2023

- Primary School Certificate

Treasure International School, Port Harcourt

2011 – 2016

SOFT SKILLS

- - Problem Solving
- - Communication
- - Team Collaboration
- - Attention to Detail
- - Adaptability
- - Time Management
- - Calendar & Email Management
- Digital Tools (Canva, Trello, Mailchimp)
- Document Preparation & Filing
- Document Preparation & Filing

TOOLS & TECHNOLOGY

Languages: HTML, CSS, JavaScript
Frontend Frameworks: Angular.js, React, Vite, Tailwind CSS
Backend: Node.js, Express.js
Database: MongoDB, Firebase
Version Control: Git, GitHub
No-Code Tools: WordPress, Webflow
Design: Figma
Others: AI integration tools, Responsive Web Design principles
